Regional Operations Center  
Salt Lake City, UT*

# **WEATHER KEY POINTS**

**01/12/22 - 01/18/22**

## **Wednesday - Tuesday**

- Periods of gusty offshore winds are expected across southern California through Wednesday, with gusts of 30-50 mph possible in prone locations of Los Angeles and Ventura Counties, as well as the Central Coast and nearby hills. Winds will taper off late morning into mid afternoon Wednesday.
  - Minor damage and travel impacts are possible due to these gusty winds
- Areas of dense fog are possible through the week, which could impact travel across the state
- A few periods of brief, light precipitation are possible across the north coast Wednesday night into Thursday, with light snow possible over the higher coastal mountains.
- There is a very slight chance of light showers across southern California late Friday into Saturday.
